Narrative

Purpose: An emergency construction contract for the installation of a temporary heating hot water distribution piping system at the Bay Park Sewage Treatment Plant in East Rockaway, New York.

Discussion This past winter the underground 12" diameter heating hot water piping failed in numerous locations, rendering (12) buildings without heat. This necessitated emergency heat be provided to various buildings for worker safety, protection of equipment and maintaining the treatment process. The County spent approximately \$5,000 per day to provide emergency heat to a minimum number of the impacted buildings. A more efficient means to provide temporary heat to all of the impacted buildings will be a temporary solution through an emergency contract. The Department will publicly bid the construction contract to maintain potential FEMA eligibility for the construction work. The goal is to have the contractor install the system within four (4) months, providing heat to the impacted buildings by late fall 2015. It is anticipated that the temporary solution will be in operation for approximately two to three years. During this time the long term solution will be designed, bid and constructed/installed.

Impact on Funding: The contract provides for the expenditure of \$3,937,700.00. Funding will be provided through an existing Capital Project No.: 3B119. The County intends to pursue reimbursement through FEMA. Bids were opened on June 30, 2015 and RJ Industries was accepted as the lowest responsible bidder.

Recommendation: It is recommended that this contract be approved as submitted.

Contract S3B119-06G
Bay Park Sewage Treatment Plant Heating Hot Water Piping Temporary System

Bids for Contract S3B119-06G were opened on June 30, 2015 at 10:30 AM at Nassau County's Theodore Roosevelt Executive and Legislative Building. At the request of the Nassau County Department of Public Works (NCDPW), Hazen and Sawyer and ARCADIS (PMJV) has evaluated the bids for Contract S3B119-06G.

Bid Comparison

Table 1 below summarizes the bids received for the contract and includes the Engineer's Estimate.

Table 1	
Summary of Submitted Bids for Contract S3B119-06G	
Contractor	Submitted Bid Total
Engineer's Estimate	\$3,285,604.00
R.J. Industries, Inc.	\$3,937,700.00
Boilermatic Welding Industries, Inc.	\$9,681,440.00

As shown in Table 1, the Engineer's Estimate is \$3,285,604.00 (which includes unit price items). The lower of the two bids received was \$3,937,700.00 from R.J. Industries, Inc. (RJII), with a mean value of the two bids of \$6,809,570.00. The low bidder, RJII, is approximately 19.8% higher than the Engineer's Estimate. The total of unit price items between the Engineer's Estimate and RJII differs by \$57,000.00. The most evident difference noted was between the lump sum bid prices (+\$708,096.00). This difference can be attributed to the following:

- Emergency, fast-track schedule,
- The expeditious nature of the project requires multiple crews which translates into a loss of efficiency,
- An element of field design in which assumptions can create uncertainties and render additional costs,
- Bids may reflect increased vendor costs and expenses to account for tight delivery schedule of

materials, and

Evaluation of Apparent Low Bidder – R.J. Industries, Inc.

At the request of the NCDPW, PMJV has evaluated RJII, the apparent low bidder. A Dun & Bradstreet (D&B) report is attached. In summary, the D&B Business Information Report indicated the following, listed below in Table 2, as of the reporting date, 6/30/2015:

Table 2 R.J. Industries, Inc. D&B Report Summary		
D&B Item	Score	Comment
D&B Rating	1R3	Composite credit appraisal fair
D&B Paydex	74	Payments to suppliers average 9 days beyond payment terms based on payments collected over the last 3 months
Credit Score Class	3	Average
Financial Stress Class	4	Moderately higher than average financial stress
Viability Rating	5- -B-G	See discussion below

From the D&B report, it can be noted that RJII is a small water/sewer/utility construction services company. They have been in business since 1997. Their credit history is clear with no major issues and they currently employ 20 people. The report contains no financial information to review, such as a balance sheet or profit and loss statement (P&L). They pay vendors on average at a somewhat slower rate than the industry average. The industry pays at six days beyond terms on average and RJII averages 15 days. However, they do pay approximately 69% of vendors according to payment terms, so their payment history is not of particular concern. While there is somewhat limited information beyond what is noted above, there are no significant issues noted.

The D&B Viability Rating uses D&B's proprietary analytics to compare predictive business risk indicators and assess the probability that a company will go out of business, become dormant/inactive, or file for bankruptcy within the next 12 months. The first value is a Viability Score, based on a scale of 1-9 with lower values representing lower risk, which assesses the probability that a company will no longer be in business, within the next 12 months, compared to all U.S. businesses within the D&B database. The second, also on a 1-9 scale, is a Portfolio Comparison which assesses the viability of a company compared to similar businesses. The scores for RJII place the firm in D&B's Moderate/High risk level categories with probabilities of the firms becoming no longer viable within the next 12 months of 7%.

The third D&B Viability Rating is for data depth, an indicator of how much business intelligence is known about a business based on the availability of predictive information such as commercial trading activity

and financial attributes. This indicator serves as a score qualifier and is based on a scale of A to M. RJII has a B score.

The last D&B Viability Rating examines how established a company is based on a combination of categories including financial data, trade payments, years in business, and company size (number of employees or sales). This indicator also serves as a score qualifier and is based on a scale of A to Z. RJII has a G score.

Discussions with the project references contacted did not provide any insight into the firms' financials.

The Credit Limit Recommendation (CLR) is intended to serve as a directional benchmark for all businesses within the same line of business or industry, and is not calculated based on any individual business. Thus, the CLR is intended to help guide the credit limit decision, and must be balanced in combination with other elements which reflect the individual company's size, financial strength, payment history, and credit worthiness, all of which can be derived from D&B reports.

Risk is assessed using D&Bs scoring methodology and is one factor used to create the recommended limits. See Help for details.

The Financial Stress Score predicts the likelihood of a firm ceasing business without paying all creditors in full, or reorganization or obtaining relief from creditors under state/federal law over the next 12 months. Scores were calculated using a statistically valid model derived from D&Bs extensive data files. The Financial Stress Class of 4 for this company shows that firms with this class had a failure rate of 0.84% (84 per 10,000), which is 1.75 times higher than the average of businesses in D & B's database.

Financial Stress Class :

 Financial Stress National Percentile : **8** (Highest Risk: 1; Lowest Risk: 100)
 Financial Stress Score : **1394** (Highest Risk: 1,001; Lowest Risk: 1,875)
 Average Risk of Severe Financial Stress for Businesses in D&B database: **0.48 %** (48 per 10,000)

The Financial Stress Class of this business is based on the following factors:

Low proportion of satisfactory payment experiences to total payment experiences.

IRAN DIVESTMENT ACT – CERTIFICATION

Pursuant to New York State Finance Law §165-a, Iran Divestment Act of 2012, the Office of General Services is required to post on its web site <http://www.ogs.ny.gov/about/regs/docs/ListofEntities.pdf> a list of persons who have been determined to engage in investment activities in Iran ("the List"), as defined in that Act. Under Public Authorities Law § 2879-c, Iranian Energy Sector Divestment, the Authority, may not enter into or award a Contract unless it obtains a certification from a Bidder, who shall check the box and make the certification in Subparagraph a, below, that they are not on the List. If that certification cannot be made, the Authority may consider entering into a Contract, on a case by case basis if the Bidder checks the box and makes the certification in Subparagraph b, below, that their Iran investment is ceasing.

For purposes of this provision, a person engages in investment activities in Iran if: (A) the person provides goods or services of twenty million dollars or more in the energy sector of Iran, including a person that provides oil or liquefied natural gas tankers, or products used to construct or maintain pipelines used to transport oil or liquefied natural gas, for the energy sector of Iran; or (B) the person is a financial institution that extends twenty million dollars or more in credit to another person, for forty-five days or more, if that person will use the credit to provide goods or services in the energy sector in Iran.

The Certification is as follows:

- ☒ a. **Certification that the Bidder is not on the List:** Each person, where person means natural person, corporation, company, limited liability company, business association, partnership society, trust, or any other nongovernmental entity, organization, or group, and each person signing on behalf of any other party, certifies, and in the case of a joint bid or proposal or partnership each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each person is not on the list created pursuant to paragraph (b) of subdivision 3 of section 165-a of the State Finance Law, or,
- ☐ b. **Certification that the Bidder's investment in Iran is ceasing:** The person cannot make the certification in Subparagraph a, above, but asks the Authority to consider them for award of the Contract by certifying, under penalty of perjury, that the person's investment activities in Iran were made before April 12, 2012; the person's investment activities in Iran have not been expanded or renewed after April 12, 2012; and the person has adopted, publicized and is implementing a formal plan to cease its investment activities in Iran and to refrain from engaging in any new investments in Iran.
